II. PRELIMINARY STATEMENT

2.1. In accordance with 40 C.F.R. §§ 22.13(b) and 22.18(b), issuance of this Consent Agreement commences this proceeding, which will conclude when the Final Order becomes effective.

2.2. The Director of the Office of Compliance and Enforcement, EPA Region 10 ("Complainant") has been delegated the authority pursuant to Section 3008 of RCRA, 42 U.S.C. § 6928, to sign consent agreements between EPA and the party against whom an administrative penalty for violations of RCRA is proposed to be assessed.

2.3. Part III of this Consent Agreement contains EPA's concise statement of the factual and legal basis for the alleged violations of RCRA together with the specific provisions of RCRA and the implementing regulations that Respondent is alleged to have violated.

III. EPA'S ALLEGATIONS

3.1 40 C.F.R. § 260.10 defines a "person" as an individual, trust, firm, joint stock company, Federal Agency, corporation (including a government corporation), partnership, association, State, municipality, commission, political subdivision of a state, or any interstate body.

3.2 40 C.F.R. § 261.2(a)(1) defines "solid waste" as any discarded material that is not excluded under 40 C.F.R. § 261.4(a) or that is not excluded by a variance granted under 40 C.F.R. §§260.30 and 260.31 or that is not excluded by a non-waste determination under 40 C.F.R. §§260.30 and 260.34.

3.3 40 CFR § 261.3 defines "hazardous waste" as a "solid waste" that has not been excluded from regulation as a hazardous waste under 40 C.F.R. § 261.4(b) and which meets any of the criteria identified in 40 C.F.R. § 261.3(a)(2).

3.4 40 CFR § 260.10 defines a "generator" as any person, by site, whose act or process produces hazardous waste identified or listed in 40 C.F.R. Part 261 or whose act first causes a hazardous waste to become subject to regulation.

3.5 Respondent is an Alaska limited liability company doing business in the state of Alaska.

3.6 Respondent is a "person" as that term is defined by 40 C.F.R. § 260.10.

3.7 At all times relevant to the allegations set forth herein, Respondent has been the "owner" and "operator" of the facility located at 1100 H & H Lane, North Pole, Alaska (the "Facility"), as those terms are defined at 40 C.F.R. § 260.10.

3.8 At all times relevant to EPA's allegations, the Facility was a petroleum refinery that refined crude oil to produce petroleum derivatives including gasoline. Groundwater remediation activities, among other processes at the Facility, result in the generation of solid and hazardous wastes.

3.9 The Facility is a "generator" as defined by 40 C.F.R. § 260.10.

3.10 At all times relevant to the allegations set forth herein, the Facility was not a permitted treatment, storage, disposal facility, nor an interim status facility under Section 3005 of RCRA. 42 U.S.C. § 6925.

VIOLATIONS ALLEGED BY EPA

COUNT 1: Failure to Make a Hazardous Waste Determination

3.11 40 C.F.R. § 262.11 requires a person who generates solid waste to determine if that waste is a hazardous waste using the methods provided in 40 C.F.R. § 262.11(a)-(d).

3.12 On June 19, 2013, Respondent conducted groundwater remediation activities at the Facility that caused the generation of spent groundwater pre-filters containing iron sulfide (hereafter "spent groundwater pre-filters").

3.13 At the time of the generation of the spent groundwater pre-filters, Respondent had not made a hazardous waste determination for the waste in accordance with the methods specified at 40 C.F.R. § 262.11(a)-(d).

3.14 40 C.F.R. § 261.21(a)(2) provides that a solid waste exhibits the characteristic of ignitability if a representative sample of a non-liquid waste is capable under standard temperature and pressure, of causing fire through friction, absorption of moisture or spontaneous chemical changes and, when ignited, burns so vigorously and persistently that it creates a hazard.

3.15 40 C.F.R. § 261.23(a)(1) provides that a solid waste exhibits the characteristic of reactivity if a representative sample of the waste is normally unstable and readily undergoes violent change without detonating.

3.16 The spent groundwater pre-filters generated on June 19, 2013, subsequently self-ignited and caused two fires that burned vigorously and persistently, thereby exhibiting the characteristics of ignitability and reactivity.

3.17 Respondent's failure to determine that the spent groundwater pre-filters generated at the Facility were hazardous waste is a violation of 40 C.F.R. § 262.11.

COUNT 2: Storage of Hazardous Waste without a Permit or Interim Status

3.18 Section 3005 of RCRA, 42 U.S.C. § 6925, and 40 C.F.R. § 270.1(c) require that any person who treats, stores, or disposes of hazardous waste have a permit or interim status.

3.19 40 C.F.R. § 262.34(a) provides that a generator may accumulate hazardous waste on-site for 90 days or less without a permit or interim status, provided that the generator complies with the requirements identified at 40 C.F.R. § 262.34(a)(1)-(4) or 40 C.F.R. § 262.34(b).

3.20 40 C.F.R. § 262.34(a)(1), which incorporates by reference the requirements of 40 C.F.R. § 265.173(a), allows a generator to store its hazardous waste in a container provided that the container must always be closed during storage, except when it is necessary to add or remove waste.

3.21 From June 19, 2013, until at least June 22, 2013, Respondent stored spent groundwater pre-filters, a hazardous waste, inside a roll-off container that did not have a lid.

3.22 Respondent failed to store a hazardous waste in a container that was always closed except when necessary to add or remove waste as required by 40 C.F.R. § 262.34(a)(1) and 40 C.F.R. § 265.173(a).

3.23 40 C.F.R. § 262.34(a)(2) requires that a generator clearly and visibly mark the date upon which each period of accumulation begins for inspection on each container holding a hazardous waste.

3.24 From June 19, 2013, until at least June 22, 2013, Respondent stored spent groundwater pre-filters, a hazardous waste, inside a roll-off container which was not marked with a hazardous waste accumulation start date.

3.25 Respondent did not clearly and visibly mark the date of each period of hazardous waste accumulation on its hazardous waste container as required by 40 C.F.R. § 262.34(a)(2).

3.26 40 C.F.R. § 262.34(a)(3) provides that, while being accumulated on-site, each container storing a hazardous waste be labeled or marked clearly with the words "Hazardous Waste."

3.27 From June 19, 2013, until at least June 22, 2013, Respondent stored spent groundwater pre-filters, a hazardous waste, inside a roll-off container which was not marked with the words "Hazardous Waste."

3.28 Respondent stored a hazardous waste at the facility without labeling the waste's container with the words "Hazardous Waste" as required by 40 C.F.R. § 262.34(a)(3).

3.29 40 C.F.R. § 262.34(a)(4), which incorporates by reference the requirements of 40 C.F.R. § 265.31, requires a generator of hazardous waste to maintain and operate its facility in such a manner as to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to air, soil, or surface water which could threaten human health or the environment.

3.30 On June 20, 2013, and June 22, 2013, Respondent maintained and operated its facility in such a manner that spent groundwater pre-filters, a hazardous waste, were exposed to oxygen and caused pre-filters in the roll-off container to ignite.

3.31 Respondent failed to maintain and operate the Facility in such a manner as to minimize the possibility of a fire, as required by 40 C.F.R. § 262.34(a)(4) and 40 C.F.R. § 265.31.

3.32 Respondent failed to comply with the conditions for the accumulation of hazardous waste at the Facility without a permit or interim status specified at 40 C.F.R. § 262.34(a)(1)-(4) and 40 C.F.R. § 262.34(b). Therefore, Respondent operated the Facility as a treatment, storage, or disposal facility without a permit or interim status, in violation of Section 3005 of RCRA, 42 U.S.C. § 6925, and 40 C.F.R. § 270.1(c).

3.33 Under Section 3008 of RCRA, 42 U.S.C. § 6928, and 40 C.F.R. Part 19, EPA may assess a civil penalty of not more than \$37,500 per day for each violation, issue an order requiring compliance, or both.

After considering these factors, EPA has determined that an appropriate penalty to settle this action is \$80,000.
